

LINER ROLPANIT DM220

Features

- ◆ Manufactured utilising heavy duty materials throughout to ensure a long and reliable working life.
- ◆ Crushing and kneading action make the Rolpanit DM220 ideal for mixing lime mortars and plasters.
- ◆ Excellent for recycling old mortars and plasters.
- ◆ Can be used to mix wet concrete with Rollers raised or removed.
- ◆ Twin axle fast tow chassis with brakes for easy towing between sites

Weight = 1960 kg
 Length = 3975mm
 Height = 1700mm
 Width = 1510mm

Specifications

Capacity	220 litres (8 cu ft) unmixed
Mixing Pan	1320 mm diameter pan with renewable base and rim wear plates
Mixing Blades	Removable mixing blades on adjustable fingers
Rollers	Heavy cast iron rollers on a fabricated saddle. Height adjustable up to 64 mm from pan base
Roller Compression Springs	Heavy duty compression springs increase the effective weight of the rollers
Power Unit	Kubota 3-cylinder water cooled diesel engine with electric starting.
Drive	Robust mechanical drive which automatically engages when engine revs are increased.
Bearings	Heavy duty ball bearings throughout.
Chassis	Strong hollow section welded chassis on twin axle fast tow running gear 4 corner drop stands for added stability
Brakes	Rod operated drum brakes with over-run mechanism
Guards	Fully guarded to latest HSE & CE Standards
Options	Alternative engines. Mortamover Mortar Pans.
